

EYFS Curriculum

Numeracy

Nursery— Nursery will begin to use the language of size, length and height—we will also begin to order items by length. We will be counting reliably, consolidating number recognition and beginning to match numeral and quantity correctly.

Reception— This half term the children will be focussing on the number that is one more than a given number. They will also be looking at adding one and two to any number to 10. We will be looking at measuring length using nonstandard units and sequencing familiar events. We will continue to discuss the properties of common 2D and 3D shapes.

Nursery— This half term the children will be naming and talking about different body parts. We will be exploring the main characters in our books. We will be joining in with repeated refrains and beginning to anticipate what happened next. The children will be consolidating giving meaning to marks.

Reception— This half term the children will begin to construct simple sentences, match sounds to letters and hear and say initial, final and medial sounds . We will be beginning to write CVC words and writing simple sentences.

Topic

This half term our topic is 'Wonderful Me'. This half term we are hoping to visit our local library at Smallbridge—this is a wonderful, free resource for you to use and to share a love of books with your child.

PE

The reception children will continue to do PE on a Monday afternoon. Thank you for those parents who have brought in black shorts, a white T-shirt and a pair of black pumps.

Learning Together - Care, Challenge and FUN!!
